

Requesting access to WCMS (First-Spirit) project:

Before requesting access, please note the following

1. Your Userid (e.g. SZM9WZ)
2. WCMS-Project (e.g. RBPT_DIY_MAGAZINE_UK)
3. IdM – Target system (environment where the project is located)
 - P-I1 -> „WCMS Internet/Extranet“
 - P-I3 -> „WCMS P-i3 Internet/Extranet“
 - P-I4 -> „WCMS P-I4 - Internet - Azure EMEA“
 - Q-I3 -> „WCMS Q-I3 Internet/Extranet“
 - Q-I4 -> „WCMS Q-I4 - Internet - Azure EMEA“
4. Requested role as well as a short explanation why it is needed
 - Suffix „editor“ -> creating, changing and deleting objects within WCMS
 - Suffix „supereditor“ -> can also release
 - Suffix „netowner“ or „netmanager“ -> can also start deployment jobs and change the rights to objects
 - Prefix „rb.wcms.admin.role.“ -> apart from, the “netowner” and “netmanager” a wcms admin can also perform additional actions in the Site Architect (e.g. Admin release). Admin can also change the configuration in the Server Manager (as the settings are quite complex please always inform the WCMS team before making any changes)

The standard access rights are:

The roles always start with a prefix ("rb.wcms.role." or "rb.wcms.admin.role."), followed by the WCMS project name. There is an overview listed while requesting it.

Please note:

- the following environments are currently connected to OnIdM: Q-I1, P-I1, Q-I3, P-I3, Q-I4, P-I4
- the D-environments can't be requested via IDM
- in case of D-environment please contact WCMS Team: CI/DAD13-Internet.WCMS-Team internet.WCMS.Team@bosch.com and kindly provide the following input:
 - User ID
 - Project
 - Role

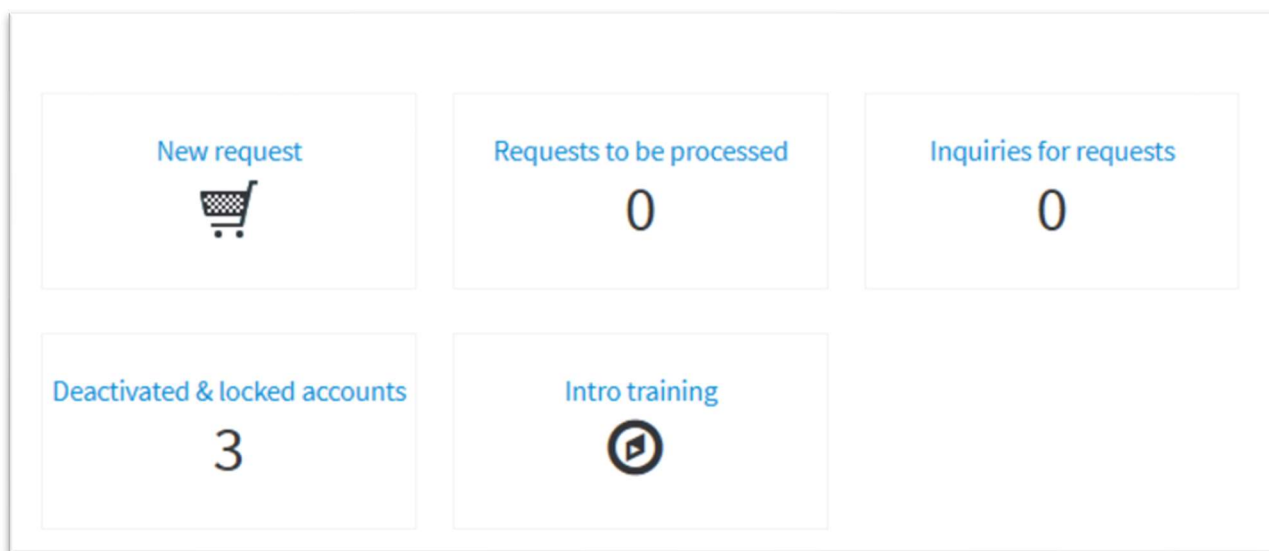

User Guide: How to add a user role in oneIdM

In this guide we have mentioned the steps to add a user role in oneIdM

Step 1: Open oneIdM portal using this url ->

https://oneidm.bosch.com/oneidm/html/rbwebshop/#/start/itshop/VI_Start

Step 2: Click on **New request** option.

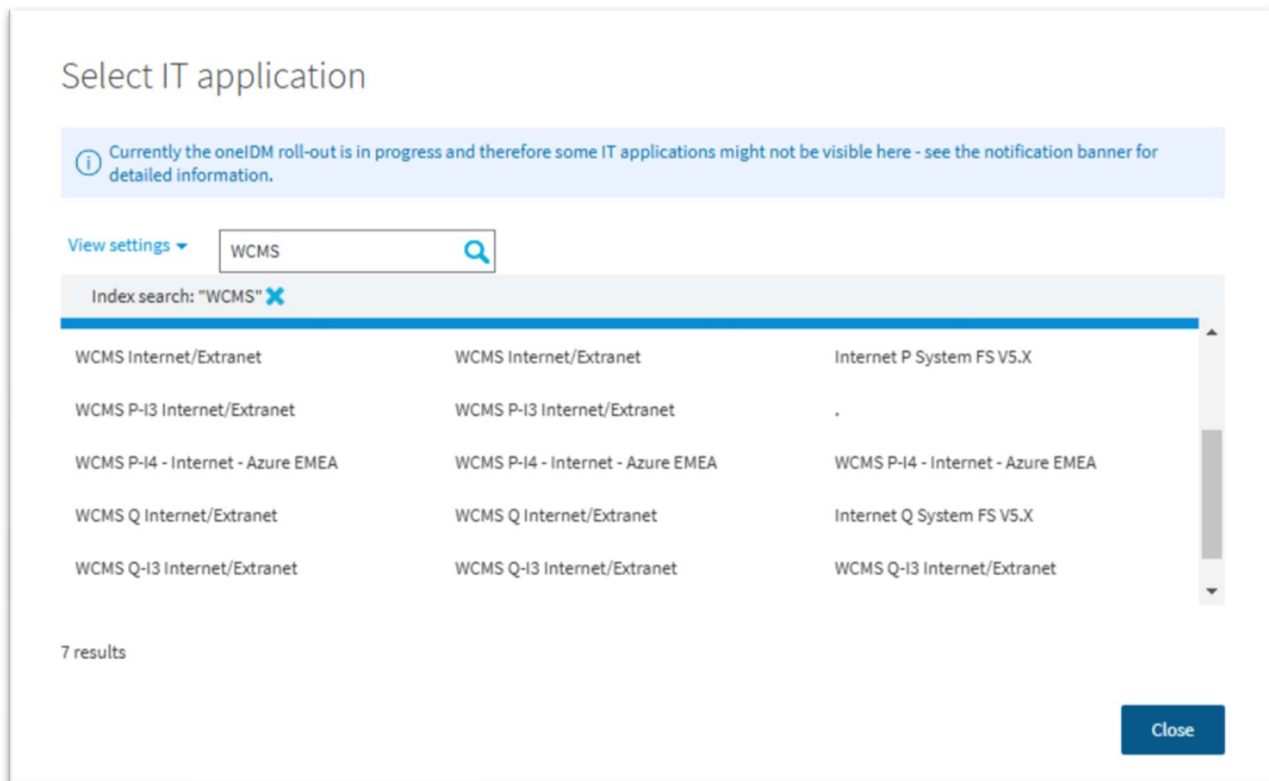

Step 3: Enter UserName for which we want to request the new role.

Step 4: Select IT application.

- Click on "Select IT application" button. It will open a dialog box.
- Enter the application name (WCMS)
- It will show a list of servers and you can choose the required server.

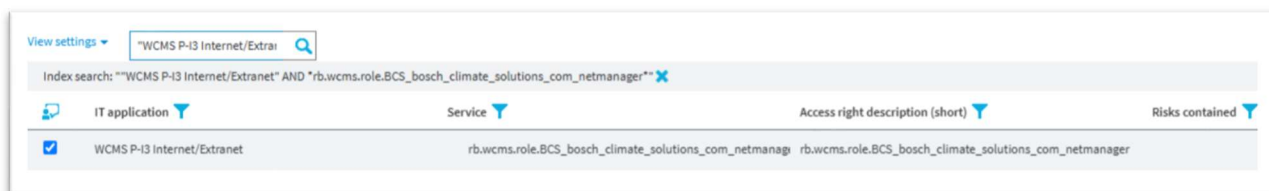

Step 5: Enter the required role name and click on the search icon.

- Now you should see the role in the table below and click on the Checkbox on the left to select the role.

For ex rb.wcms.role.BCS_bosch_climate_solutions_com_netmanager

Step 6: Click on the Add to shopping cart button in the bottom right corner of the screen.

- You should see a cart icon against your selected role in the table

Recipients  Ayushi Bansal (BD/CTA-DEX2) (AYB1COB) Select
